

Sebastián Moreno

TECH LEAD · FRONTEND, BACKEND & CLOUD DEVELOPER

Interactive version
esemedede.github.io

Summary

Industrial Mechanical Engineer (UTFSM) with 10+ years building software across the energy and consumer-goods industries. Currently Tech Lead of the T2 load optimizer and principal developer of T1 at KOANDINA (Coca-Cola Andina): logistics-optimization solutions on AWS serverless architecture. Expert in Python, SQL data, CI/CD and design patterns. I integrate applied AI into my products: MCPs, RAG and fine-tuning.

Experience

AUG 2025 — PRESENT

KOANDINA · Coca-Cola Andina

Tech Lead T2 · Principal Developer T1

- Technical lead of T2, the truck-load optimizer from Distribution Centers to customers.
- Principal developer of T1: load optimization between DCs using a product pool and fleet.
- AWS serverless architecture and technical direction within the Optimizer cell.

AUG 2024 — AUG 2025

KOANDINA · OTC cell

Senior Developer

- Serverless AWS backend orchestrated with Step Functions (no frontend).
- FastAPI API to serve data from the database.

OCT 2023 — AUG 2024

KOANDINA · Coca-Cola Andina

IT Senior Developer

- Development of the regional load optimizer as part of the in-house team.

SEP 2022 — SEP 2023

SR-Consultores

Fullstack Developer Consultant

- Regional pallet optimizer for Coca-Cola Andina (Python, React).
- Serverless AWS: Lambdas, API Gateway, RDS, DynamoDB, Cognito, CloudFormation.

DEC 2018 — AUG 2022

Phineal

Development Engineer

- Blockchain-certified telemetry of energy data in solar plants.
- Real-time platforms (MERN/PERN); data engineering with Pandas and PySpark.
- Impacto Chile 2021 and CAMEXA Energy Challenge 2020 (winners).

MAY 2018 — DEC 2018

Energio

Development Engineer

- Energy smart contract on NEO; IoT meters over MQTT.
- Winner, energy challenge, Blockchain Summit LATAM 2018.

2010 — 2015

Early days — CODELCO · Arauco · iParty

Mechanical engineering & first scripts

- Thesis student and intern at CODELCO; VBA macros and PHP scripts integrated with an ERP.

Skills

Cloud

AWS (Lambda, Step Functions, API Gateway, RDS, DynamoDB, Cognito) · GCP

Backend

Python · FastAPI · Node.js

Frontend

React · HTML/CSS · JS

Applied AI

MCP · RAG · Fine-Tuning · LLM APIs · AI Agents

Data

SQL · PostgreSQL · MySQL · DynamoDB · Pandas · PySpark

DevOps

CI/CD · Git · Bash · Linux

Blockchain & IoT

Smart Contracts · EVM · MQTT · ESP32

Education

Industrial Mechanical Engineering

U. Técnica Federico Santa María
2008 — 2016

Languages

Spanish — Native
English — Intermediate

Awards

- Impacto Chile 2021 — Winners
- CAMEXA Energy Challenge 2020 — Winners
- Blockchain Summit LATAM 2018 — Winner
- Actitud Awards 2022 — Finalists
